Recalling in particular that the Human Rights Council has the mandate to, inter alia, promote universal respect for the protection of all human rights and fundamental freedoms for all, without discrimination of any kind and in a fair and equal manner; to serve as a forum for dialogue on thematic issues on all human rights; and to promote the effective coordination and the mainstreaming of human rights within the United Nations system,

Reaffirming the universality, interdependence, indivisibility and interrelatedness of human rights as enshrined in the Universal Declaration of Human Rights and consequently elaborated in other human rights instruments,

Recalling the Single Convention on Drugs of 1954 as amended by the 1972 Protocol, the Convention on Psychotropic Substances of 1971 and the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988,

Emphasizing the importance both of the universality of the three abovementioned international drug control conventions and of their implementation, noting that they are concerned with the health and welfare of humankind and noting the need to promote adequate availability of internationally controlled narcotic drugs and psychotropic substances for medical and scientific purposes, in accordance with national legislation, while preventing their diversion, abuse and trafficking, in order to realize the aims of the three international drug control conventions,

Recalling also the Political Declaration adopted by the General Assembly at its twentieth special session, the Declaration on the Guiding Principles of Drug Demand Reduction, the Action Plan on International Cooperation on the Eradication of Illicit Drug Crops and on Alternative Development,

Underlining that the world drug problem remains a common and shared responsibility that should be addressed in a multilateral setting through effective and increased international cooperation and demands an evidenced based, integrated, multidisciplinary, mutually reinforcing, balanced and comprehensive approach to supply and demand reduction strategies, and reaffirming our unwavering commitment to ensuring that all aspects of demand reduction, supply reduction and international cooperation are addressed in full conformity with the purposes and principles of the Charter of the United Nations, international law and the Universal declaration of Human Rights and, in particular with full respect for the sovereignty and territorial integrity of States, the principle of non-intervention in the internal affairs of States, all human rights, fundamental freedoms, non-discrimination, the inherent dignity of all individuals and the principles of equal rights and mutual respect among States,

Recognizing that the world drug problem undermines sustainable development, political stability and democratic institutions, including efforts to eradicate poverty, and threatens national security and the rule of law, and that drug trafficking and abuse pose a major threat to the health, dignity and hopes of millions of people and their families and lead to the loss of human lives,
